

Teacher Education in Kenya: Emerging Issues

Kafu Patrick A.

Abstract

Teacher Education is an important component of education. It influences all aspects of education and beyond. Like other components of education, Teacher Education is influenced by social, political, economic and technological developments in a society. This paper examines the emerging issues in this component of education in Kenya brought about by the technological developments. Also discussed are the implications of these emerging issues to education and other related developments in this country.

Key words:Teacher education, Emerging issues, Kenya
